Presentation

Like all parents, you want to provide your children with the best possible environment in which to develop their natural gifts, abilities and skills. We offer a choice of activities within a fun and engaging framework which your children will really enjoy, and which will contribute to their wellbeing.

Located in a typical Brussels house on avenue Legrand, the layout and organization of the indoor space, allows for excellent management of all the activities. Stepping Stones strives to provide quality activities by professionals united by a passion for children's development and education!

The contents of the activities are adapted for each child as well as for the different age levels. The children have the opportunity to experience new activities, relating to their capacities and interests. For the activities to go ahead we simply require a minimum of eight children.

We also offer hot meals prepared by a caterer using only the best organic produce.

All parents who are interested in finding out more will be welcome to come and visit us from September 2015. Visits will be by appointment only.

We look forward to hearing from you!
