

Menu and nutrition

At Stepping Stones the children all sit down together for a healthy, balanced meal every day, shared in a congenial atmosphere.

We are supplied by a caterer specializing in collective meals for children. Wherever possible, organic ingredients are used in food preparation, as the welfare of the children is our primary concern.

We try to introduce a wide variety of ingredients and flavours to the children at school, so that they can develop healthfully and feeling positive about trying new foods.

You can download the monthly menu using the link below.
